We are committed to exemplify the talent, services, products and people that make Alberta special; local cuisine, beverages, vendors, Alberta artisans, Alberta breeders, young talent aspiring to international competition. Everything possible is Alberta-sourced, environmentally focused, and reusable or recycled.

Funds raised go to educational programs to foster, promote, and further equestrianism in Alberta. Learning life skills in an agricultural environment, the value of commitment, and self-reliance translates to successful careers in competing, teaching, business, and contributing to community. The greater vision is for an ongoing bursary for young people as they prepare to enter a secondary phase of education in preparation for a meaningful adulthood.
